**Re: Verizon Public Notice of Network Changes and Certification
Under Rules 51.325-51.335**

Dear Ms. Dortch:

Pursuant to Sections 51.325-51.335 of the Commission's rules, Verizon submits the attached Public Notice of Network Change under rule 51.329(a) and Certification of Public Notice of Network Change under Rule 51.329(a). Specifically, Verizon is providing notification of network changes that will result in re-routing of certain traffic from the Wilmington 72T tandem switch, located at 901 N. Tatnall Street Wilmington, DE 19801.

Please contact me should you need any further information.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jennifer Pelzman", written over a light blue rectangular background.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers may need to augment the trunk groups built to the Market 90T DMS200 Tandem switch. All ASRs for the Market 90T DMS200 Tandem switch must be received no later than November 1, 2019 in order to provide sufficient time to migrate the traffic

described above. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to traffic reroute to the Market 90T Tandem switch (**on or after December 14, 2019**). This will serve to guide interconnect re-routes of the originating intra-lata traffic for the twenty-five (25) end offices listed above that are currently being served by the Wilmington 72T Tandem switch to reflect the Market 90T Tandem switch as the new switch for this traffic. All ASRs for the Market 90T DSM200 Tandem switch must carry the project code of **PHLAPAMK90T**.
